Rotherfield Primary School Year 3 Term 5

Franklin Class
Miss Watkins and Mrs Seymour

Maths
We will be spending the first part of this term solidifying our understanding of how to find fractions of amounts. Then, we will move onto money: counting in and converting between pounds and pence, adding and subtracting money and finding change.

PSHE
The children will be using My Happy Mid to look at the next topic: Relate

Helping children to understand the importance of active listening and how this helps build and maintain relationships with others .

English
This term we will use The Wild Robot as our key text. We will be building on what we learnt about the power of persuasion last time and planning, writing and editing a persuasive leaflet about how to reduce, reuse and recycle unwanted items. We will then spend some time looking at the story in general, tracking changes that occur throughout and thinking about how these affected the main character.

RE
This term we will be thinking about the kind of world Jesus might have wanted. We will be looking at some Bible stories about Jesus' disciples and the leper to support our understanding of this.

French
We will learn to listen, talk and write about fruits and vegetables.

PE
Athletics—preparing for Sports Day!
Tennis.

Geography
This term we will be learning about the UK: what it is comprised of, where the main bodies of water and areas of high ground are, how the county system operates and studying in detail how a settlement has changed over time in order to suit more modern living.

Science
This term we will be looking at parts of plants, what plants need to grow well, understanding how water moves, studying flowers and looking at the life cycle of a plant. Throughout these sessions we will be continuing to develop key scientific enquiry skills, with the children being given more freedom to design their own investigations.

Computing
This term we will learn about coding, including writing and debugging our own codes.

Music
This term we will start to compose our own music and find ways to record it so others can read it.

Art
In art we are thinking about how to layer prints. We will start by looking at different artists work and how they created their pieces. We then move on to exploring how we can create a British landscape using different textures on a collagraph print.
